

K-Love Radio station is a wonderful "addition" to our family. The entire family listens to it. Not only my family, but many, many friends. We would be lost without it. It is a positive and uplifting station which will be missed by many if it is gone. The public needs this station because it does not have bad language nor is it offensive to anyone who listens. People are at the station receiving calls from people who need counseling or advice. I would be lost without it. K-Love is the only station we listen to. Even my kids like it. With all of the awful things that go on in this country/world, KLove is encouraging and you feel at peace listening to it. We need KLove. Every city needs KLove. Not too many other things are as family friendly as this wonderful station.
